

# HYGIENE INNOVATIONS TO BUILD A BETTER WORLD.

**HNW**  
INSIGHTS TO IMPACT

# CATALYZING CHANGE. IMPACTING LIVES.

HNW isn't just an acronym that we carry as our trademark, it's a commitment that represents what we stand for—Hygiene and Water.

Finding answers to the world's challenges and improving the quality of life is something that we put our heart and soul into.

Our solutions serve the needs of businesses across industries and communities across borders. We work to build a sustainable world that opens up countless possibilities for posterity.

## | Our Promises

Partnerships**

## FROM INSIGHTS TO IMPACT: SOLUTIONS FOR ENDLESS POSSIBILITIES

We believe the best way to deliver a solution is to start with insights. Because insights give directions, which lead to answers. Answers for business success, people's health, and a sustainable future.

## HOW INSIGHT-DRIVEN APPROACH POSITIVELY IMPACTS ROI

At HNW, our insight-driven methodology generates exponential returns by optimizing your industrial hygiene and water treatment operations. Through in-depth analysis of your facilities, processes, and goals, we uncover opportunities for improvement often overlooked by product-centric suppliers.

Workflow

# HOW IT WORKS

1	Hygiene Audits	Thorough hygiene assessments at clients' facilities to identify potential risks and areas for improvement.
2	Customized Hygiene Programs	Tailored hygiene programs based on the specific needs and challenges.
3	Specialized Training	Providing training programs for client staff on best practices in hygiene management.
4	Product Recommendation	Suggesting specialized chemical solutions based on the unique requirements.
5	Monitoring System Implementation	Implementing monitoring processes and systems to assess the effectiveness of hygiene measures.
6	Regular Site Inspections	To ensure adherence to hygiene protocols and to address any emerging hygiene concerns promptly.
7	Emergency Response Planning	For unexpected hygiene-related incidents and guide containment and remediation strategies.
8	Regulation Updates	Assisting clients in complying with regulatory requirements to avoid fines and legal issues.
9	Continuous Improvement Initiatives	Establishing feedback loops to gather insights and suggestions for improvement.
10	Documentation and Resources	Supply of comprehensive manuals, guidelines, and resources on optimal hygiene practices.
11	Customer Support and Communication	A robust customer support system for addressing client inquiries and concerns.

INDUSTRIES WE SERVE

HOSPITALITY

# RAISING THE BAR FOR HOSPITALITY HYGIENE STANDARDS.

Cleanliness and hygiene are essential for delivering great service and memorable experiences in the hospitality industry. Our innovative products and expert advice help hospitality companies maintain high standards of cleanliness. This ensures a safe, welcoming environment for guests and employees alike.

## Hotels

HNW's comprehensive Guardian Program covers every aspect of a hotel to create a safe and pleasant environment for guests and staff.

This includes:

Ware Washing | Kitchen Hygiene | Laundry  
Housekeeping | Hand Hygiene | Floor Care

## Restaurants

Our hygiene solutions for restaurants translate to improved customer satisfaction, positive reviews, a strong brand reputation, and operational efficiencies. Furthermore, it ensures regulatory compliance, reduces risks, and enhances profitability.

## Quick Service Restaurants

Given the rapid preparation and serving of food, strict hygiene practices are essential to prevent foodborne illnesses caused by bacteria, viruses, and other pathogens. Our end-to-end hygiene solutions help QSRs achieve sustainable growth and long-term success

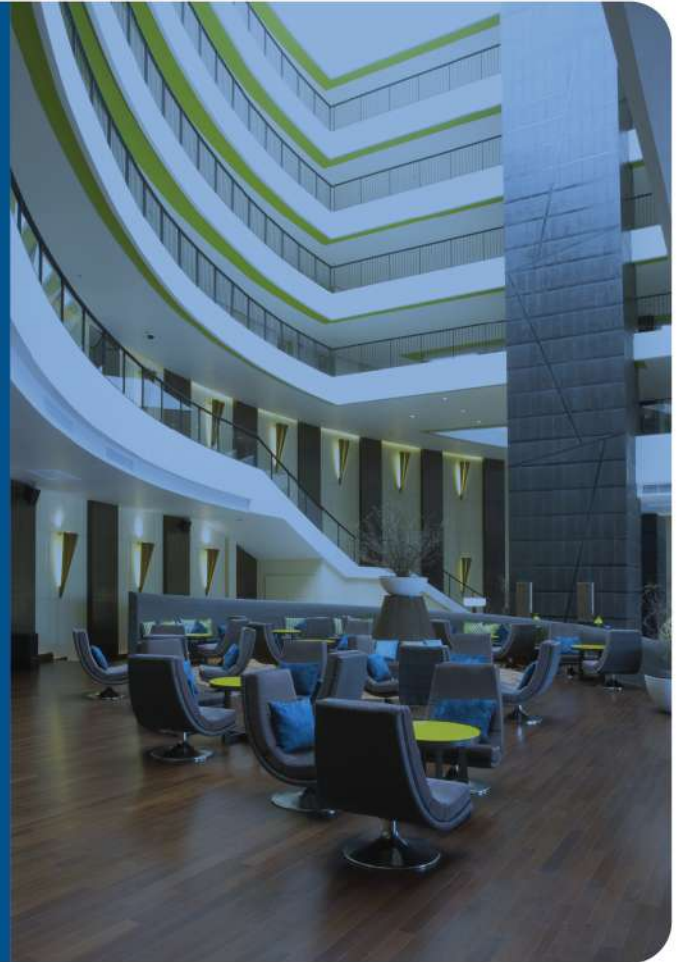

## COMMERCIAL BUILDINGS

### HYGIENIC SPACES. HEALTHY BUSINESSES.

At HNW, we provide effective cleaning solutions for all types and sizes of commercial buildings. Our products and services help maintain high standards of cleanliness and hygiene, reducing the spread of germs and illness.

Cleaning and hygiene in commercial spaces are crucial for:

- A healthy environment for all stakeholders.
- Compliant with health and safety regulations.
- Maintaining a positive business image.
- Fulfilled customer satisfaction.

## HEALTHCARE

### ELEVATING HEALTHCARE HYGIENE. OPTIMIZING PATIENT CARE.

HNW provides specialized infection prevention solutions to healthcare facilities, enhancing cleanliness, efficiency, and patient care. Our expertise ensures product quality and safety while allowing you to focus on delivering quality care and improved outcomes.

Our advanced offerings streamline cleaning protocols and optimize efficiency, enabling a safe, hygienic environment for patients and staff.

## EDUCATIONAL INSTITUTIONS

### HYGIENE SOLUTIONS OPTIMIZED FOR EDUCATION

Clean and hygienic environments are crucial for the well-being of students and staff at schools, colleges, and universities. At HNW, we offer specialized cleaning chemicals with professional services, designed specifically for educational facilities. Our products thoroughly clean and disinfect all surfaces while our services ensure consistency in maintaining hygiene in your facilities.

## RETAIL

### CREATE AN INVITING SHOPPING ENVIRONMENT

In malls, stores, and grocers, maintaining cleanliness and hygiene is crucial for creating a positive customer experience and ensuring stakeholders' well-being. At HNW, we offer specialized cleaning chemicals tailored for retail spaces. Our products thoroughly clean and disinfect high-traffic areas, food prep zones, and displays. With our solutions, retailers can maintain an inviting, clean atmosphere while prioritizing health and safety for patrons and staff.

# BUILDING TOWARD A MORE SUSTAINABLE TOMORROW

The earth is confronted with challenges like never before. The crisis around climate change, global health, water scarcity, exploitation of biodiversity, and so forth make life difficult for a growing population.

We're continuously working to align our services, solutions, practices, and policies with global sustainable efforts and strengthening the efforts made to address global challenges.

## | Our Sustainability Goals

### | Minimized Waste and Pollution

By switching to eco-friendly products, recycled and reusable packaging materials; and by implementing proper waste management practices.

### | Water Conservation

By setting up rainwater harvesting systems; and installing systems to save and reuse water.

### | Bio-Diversity and Ecosystem Conservation

By supporting local and organic agriculture; planting trees and native plants; and participating in conservation initiatives.

### | Reduced Carbon Emission

By switching to green transportation modes for our supply chain.
